Induction Program Report

The last but not least our seniors Abhishek Manse and Shahid Metkari. They both did a lot of help in guiding us, they just gave us an overview about our life in this four years from starting to end and how we should study, the things we have to pay details on. They told us to start to begin from the first day, but not to be isolated we have to enjoy our life and not lose the chances for development. Their presentation was really amazing, I got really motivated to study and they even gave us sites to gain certificates for free and boost our resume.
