Volume 13 Issue 1

News Letter Date: 31/11/2018

From the Dignitaries Desk

Department of Engineering Sciences

Inside this issue:

From the Editors and Co Editors Desk	2
Induction Program	2
Glimpses of various activities under Induction Program	2
FESA Handover Ceremony	3
Glimpses of FESA Handover Ceremony	4
Achievements of the Department	4

The RSCOE'ANS are trained through a well balanced synchronization of curricular, co-curricular and extra curricular activities. The issue of the newsletter is truly a forum for our students to manifest their imaginative skills, knowledge of language, literature, general awareness, art, creative writing, etc. Every child is blessed with certain hidden qualities, but sometimes it goes unnoticed and untrapped by the parents and the college. So here we make a sincere Endeavour to channelize their hidden potentials into positive reinforcements. I wish the Head Of Department, all the staff and students of the dept. for having taken the best initiatives in bringing out this newsletter.

The Engineering Sciences department has yet again added multiple feathers to its cap during this mid year. It gives me immense pleasure to introduce 13th Edition of the newsletter. One of our greatest strength is our highly qualified and dedicated faculty members and supporting staff. Our students are very innovative and ever eager to learn new concepts. They have always demonstrated their capabilities and brilliance in various fields. Let this newsletter and series of such letters keep us all continuously informed about all the developments of the department in the years to come. I wish the staff and students of the department All The Best...!

It gives me immense satisfaction that next issue of RAINBOW is ready for the readers. The newsletter mirrors the success story of the department and acts as a great medium to reach out to the outer world. It reflects upon the persistent and committed efforts made by faculty, staff and students for taking the institute one step ahead. Continuing the same tradition, this issue of newsletter reflects upon commendable contribution made by all members of Engineering Sciences family in their field of expertise as well as for the overall growth of the college. I Congratulate everyone for their bit of service for the department and do expect the same in times to come.

From The Editors and Co-Editors Desk

Once more it is with immense pleasure that I am given the opportunity to work on the 13th Edition of the Newsletter. "RAINBOW" is the Newsletter of the Engg. Sciences Dept. which aims to bring forward the buzz from the dept. in the past few months. I do hope that this newsletter encourages many more students to use it as a platform to express their creativity. I have put whole-hearted Endeavour's to give a complete Kaleidoscopic view of laudable achievements of our dept.

I am yet again happy to welcome you all for fledgling Edition of "RAINBOW" for scintillating year 2018-19. It is a matter of pride as well as pleasure to present before our readers next issue of Department Newsletter with much respect and humility which brings into limelight events, activities and academic prowess and achievements of the department. I sincerely hope that this Edition makes for a interesting read.

We are extremely happy and delighted to bring out our Newsletter. We feel honoured for the faith reposed in us for performing the role of Editors of Department Newsletter.
