In pursuit of commitment towards Quality in Technical Education, RSCOE which was self financed Engineering College affiliated to University of Pune till today, now has been conferred Autonomous status in the academic year 2019-20.

Students admitted in this year will be governed by the new curriculums designed under autonomy and shall be eligible to get a B. Tech & M. Tech degree after completion of their course of enrolment. This new innovation will now make students plan their activities beyond college engagements, to pursue hobbies, interests, explore career options, take up interesting internships etc., which otherwise was lying beyond the ambit of technology education. They now could learn courses which could help them in strengthening their careers & make them globally competent. Thus, with a backing of a progressive management, requisite infrastructure, committed staff and versatile students, it is not a surprise to see that RSCOE is one of the most sought after colleges in the University of Pune!!!

It is my privilege to welcome you to the big family of RSCOE which was established in 2001 and has been imparting higher education in various fields.

In the 18 years of existence RSCOE has established itself as a premier Institution. It has been escalated to great horizons of success. It has become synonymous with academic excellence, a bench mark to measure co-curricular excellence and also a centre which creates responsible citizens.

Understanding the fact that lessons in engineering cannot be confined to only classroom teaching, the education in our College has always tried to reach beyond the curriculum. Not only our students are supported to participate in technology driven projects at national as well as international level to achieve a global outlook, entrepreneurial approach through innovative ideas is also given a lot of encouragement. From the humble beginning we made in 2001 having crossed many measurable milestones, our college has become a dream destination for many Engineering aspirants.

The year 2019-20 has begun with much anticipation and aspiration towards new milestones for the department. We are excited to announce that our college has been conferred Autonomous Status. As a part of the continuous evaluation in each course, a variety of tools and techniques will now we adopted to evaluate understanding and knowledge of students. Necessary feedback shall be given to students by making the evaluation and assessment fully transparent. The students will be encouraged to discuss and understand their shortcomings which in turn shall help them in becoming professional engineers of tomorrow. The technology driven pedagogical approach, delivered by well qualified and dedicated faculty ensures that the students who graduate from RSCOE are a class apart from the rest. The faculty works towards not just developing knowledge but also instilling the right attitude and skills in the students for a holistic education relevant in a globalized context.

"A desire can change nothing, a decision can change something but a determination can change everything". So let's be committed with strong determination to learn & reach new horizons.

From the Editors & Co-Editors Desk

Once more it is with immense pleasure that I am given the opportunity to work on the 14th Edition of the Newsletter. "RAINBOW" is the Newsletter of the Engg. Sciences Dept. which aims to bring forward the buzz from the dept. in the past few months. The Department is extremely proud of all achievements it has attained in the past few months. I have put whole-hearted Endeavour's to give a complete Kaleidoscopic view of laudable achievements of our dept.

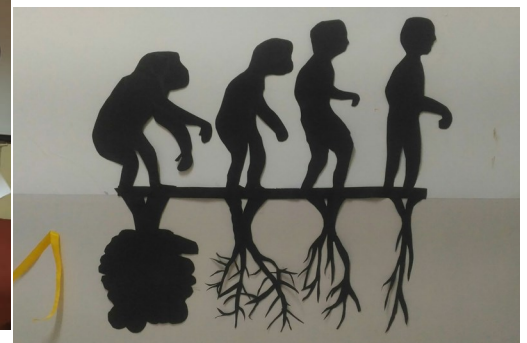

I am yet again happy to welcome you all for fledgling Edition of "RAINBOW" for scintillating year 2018-19. It is a matter of pride as well as pleasure to present before our readers next issue of Department Newsletter with much respect and humility brings into limelight events, activities and academic prowess and achievements of the department. So we probe and dwell into past memories and a little spark to your lives.

INNOVISION 2K19 (Dated: 10/01/2019)

This year the Theme for the Event "INNOVISION 2K19" was the Millennium. The Three events were conducted by the Department of Engineering Sciences such as: AAVISHKAR, MAKE-A-THON & POSTER MAKING.

One of the Poster on Theme "MILLENNIUM"

Nirbhaya Kanya Abhiyan for Girl Students (Dated: 30th & 31/10/2019)

To develop the confidence and personality of a girl student “Nirbhay Kanya Abhiyan” scheme is introduced by the SPPU. The main objective of this scheme is to develop a critical mind, self-confidence and a commitment to society among girls. The students are trained regarding health issues, law and social activities.

Department Engineering Sciences of Rajarshi Shahu College of Engineering, Pune had organized two days workshop on “Nirbhay Kanya Abhiyan” Dated- 30th and 31st October 2018. Around 120 girl students were present for the program from first year and other Departments. The program was conducted in three different sessions. The first session was conducted by Mrs. Anamika Sharma who trained regarding the importance of “Self Defense”. The second session was conducted by Ms. Anchal Sant on “Mental and physical well-being”. The third session on “preventing sexual harassment at the workplace” was conducted by Ms. Anchal Sant.

2 Days Autonomy Orientation Program for Faculty Members (Dated:)

Our institute is becoming Autonomous in A.Y. 2019-20. In context with this, for preparations and implementations of various activities under autonomy, two days orientation program was organized dated March 2019. The various eminent personalities were called from different Autonomous Colleges to deliver a session on the topics: Examination scheme, Syllabus framing, Benefits of Autonomy, Academic and Exam Reforms, Innovation and Research, etc. The sessions were very much interactive and effective in all aspect.

Achievements of the Department

In the Event **Spectrum 2K19** at PCCOE College held on 31/03/2019, the students of FE: Samruddhi Naukudkar, Rajus Patil and Aakash Rao Won Second Prize with Trophy, medal and Rs. 1500/- Cash prize in the **ELECTRICA** Event which is totally based on knowledge of Basic Electronics and Electrical Engineering.

The students of First Year have participated in the event of **ROBO-SOCCER** which is event organized in **Spectrum 2K19** at PCCOE on 31/03/2019. There were total 5 Teams in total:
Team 1: Pratik Bharsakde **Team 2: Akashrao Vallapuneni and Rahul More**
Team 3: Pranav Gadekar & Nikitesh Patil
Team 4: Devendra Patil & Gaurav Patil
Team 5: Ruturaj Nilawar and Pratik Chaudhari
 They Won First Prize for the event **ROBO-SOCCER** organized by First year Department of PCCOE. Also they **Won Second Prize** in **ELECTRICA** event.
