**Event Name** : Field Visit to Rural Area under 'Community Engagement Projects'

The Department of Engineering Sciences and Humanities successfully organized a Community Engagement Project Activity on **Date 2024**. The event aimed to

### **1.0 Introduction**

Government of India has introduced New Education Policy, 2020 for upgradation of the education system all over the country. Introduction of Community Engagement Projects as a subject at HEIs was an initiative undertaken under the flagship of Unnat Bharat Abhiyan. The main purpose of this subject is to make the students aware of the issues in rural India at grassroots level. Also to develop interest in them towards rural India and eventually work for the betterment of the place by implementing innovative technologies from young minds.

In order to achieve this, students need to visit near - by villages and collect information regarding problems faced by the rural people.

### **2.0 Objective of the Field Visits**

To inculcate a sense of responsibility in contributing towards upliftment of rural India and providing a helping hand to the Government of India in achieving the same.

### **3.0 Structure of field visit**

The Department of Engineering Sciences and Humanities, RSCOE, Tathawade, admits 14 divisions of various Engineering branches; out of which 7 branches study the subject 'Community Engagement and Projects' in the Semester I.

During the field visit, every division visited one particular village and studied the administration and functioning of the village, problems faced by the villagers by interacting with them.

The field visit was conducted on 5<sup>th</sup> and 7<sup>th</sup> of December 2024. The villages visited by the 7 Divisions are as below,

Div A – Gahunje

Div B – Jambhe

Div C – Kinhai, Dehu

Div D – Andhale

Div J – Kasarsai

Div K – Katarkhadak

Div L – Kinhai, Dehu

The students under the guidance of their respective instructors, interacted with the village local administration bodies and villagers regarding various aspects of problems faced in the rural area. The students were well versed regarding various problems faced by the villagers in terms of water supply, sanitation, solid waste management, power supply, transportation, education, healthcare facilities etc., after the interaction. The detailed questionnaire referred for interaction is attached below.
