**Rajarshi Shahu College of Engineering, Tathawade, Pune**  
(An Autonomous Institute Affiliated to Savitribai Phule Pune University, Pune)

**Academic Year: 2024-2025**

**Date:** 17th April 2025

**Day:** Thursday

**Faculty Coordinators:** Prof. M.H.Patankar

**Time:** 02:30 PM – 4:00 PM

**Place of Event:** Jaywant Auditorium

**Organized Under:** Internal Complaint Committee (ICC)

**Details:**

As part of an **institute-level initiative**, a **Guest Lecture** was successfully organized under the **Internal Complaint Committee (ICC)** on “**Cervical & Breast Cancer – Importance of Regular Testing & Vaccination**” on 17th April 2025. The session was exclusively conducted for **all girl students and lady faculties** to raise awareness about women’s health and preventive care.

The expert speaker, **Dr. Manjusha Prabhune (MBBS, MD, Gynecologist)**, is affiliated with **Axoncare Clinic, Wakad**, and practices at **Kothrud Hospital, Pune**.

During the session, Dr. Manjusha discussed the following key points:

- The necessity of early screening for cervical and breast cancer
- The role of regular medical checkups in early detection
- The importance and effectiveness of vaccinations like the HPV vaccine
- Common myths about women’s health and the importance of health education

The session was well-received, engaging, and informative. The open discussion during the Q&A segment provided participants a chance to address their queries in a supportive and professional environment. The guest was felicitated with a token of appreciation for her valuable contribution.
