Value Added Training on "Unmanned Aircraft Systems"

Submitted : **Date:** : 05/09/2023 to 11/09 /2023

Faculty Members	**03**
Students	**60**

Title of the Program :	"Value added Training on "Boot camp programs on Unmanned Aircraft Systems (Drones and related technologies)"
Programme Objectives:	Hands on Training for the introduction of a new concept of Unmanned Aircraft Systems i.e. Drones and related technologies.
Programme Outcome	Students acquired the technical information along with hands on training on the assembly of Drones. They were also introduced to the Drone Technology, various terms and the software involved.
Place of Programme	Rajarshi Shahu College of Engineering, Tathawade, Lecture Hall A 100.
Date of Programme	05/09/2023 to 11/09 /2023
Details of Programme	On 5th September 2023 the programme started with Inauguration by Principal Dr. R.K. Jain, Head of the Department, Dr. R.D.Jagdish, faculty members and students of civil and electronics & Telecommunication Department at 10:00 am. The session was conducted by Mr. Kaushal Sharma and his C-DAC team. The session was very informative and interesting. At last, the program ended with vote of thanks by prof. Dr. Shahapure.
Glimpses of Programme	

Conclusions	Participants were benefited with the knowledge on the latest technology related to Drone, its types, flight technology, software and also hands on training on the assembly of Drone. They also understood the application of Drone technology in Civil Engineering.

Career training sessions

Every year Rajarshi Shahu College of Engineering conducts 120 HRs of crash course covering aspects like aptitude, communication skills, and basics of programming for the majority of the undergraduates of the campus. During the training program, the company-specific preparation is being done keeping in the mind the first 3-5 bulk recruiters like TCS, Cognizent, Capgemini & Accenture. The mock interview trail is also an important element of the CRT program giving the students a close experience of the actual interview process. This initiative helps to deliver the maximum number of offers during the first recruitment cycle. This training is delivered through the various vendors from the market based on their overall reputation and performance.

5) 60 hrs+ Pre Recorded Videos For Basic Understanding

6) Company Specific Workshop Will Organised As When Required

TECHNICAL -Course Objective/ Outcome Expectation:

- ✓ To write optimized code.
- ✓ Solve Programming with Time complexity.
- ✓ Develop Logic building in Programming
- ✓ To increase problem solving skills in programming.
- ✓ Clearly understand, how To Approach A Coding Problem and also Develop different Approach to solve Programming
- ✓ Student resume will become more selective, hence you will get more interview calls.
- ✓ Must Do Coding Questions Company-wise
- ✓ Can able to crack coding challenges.
- ✓ Practice for cracking any coding interview
- ✓ How to begin with Competitive Programming

Campus Credential

Java Programming:

Topic	Subtopic
Why Programming?	✓ Introduction to programming
	✓ Representation of algorithms
	✓ Introduction to Java
	✓ Keywords, variables, identifiers and data types
	✓ Operators
	✓ Implicit/Explicit Type conversions
	✓ Control Structures Selection Control Structures
	✓ Flow Control
	✓ Iteration Control Structures
OOP Basics	✓ Need for OOP
	✓ Class and Objects
	✓ Methods and parameters
	✓ Constructors
	✓ Instance and Local variables
	✓ this keyword
	✓ Memory management Memory management
	✓ OOP concepts
Exception Handling	
File handling	
Encapsulation	✓ Abstraction
	✓ Access modifiers
	✓ Arrays and String Working with Arrays
	✓ String and its methods
Debugging & Code Analysis	
Debugging	✓ Code Analysis using Programming Mistake
	✓ Detector (PMD)
Static Static variables, methods, blocks Relationships	
Association	✓ Aggregation
	✓ Inheritance and its types
	✓ super keyword
	✓ Polymorphism Static polymorphism
	✓ Dynamic polymorphism
	✓ Object and Wrapper classes Object and Wrapper classes
Abstract classes and methods	✓ final class, method, variable
	✓ Interfaces
	✓ Exception handling and packages Exception handling
	✓ Packages
	✓ Abstract , final and Interfaces

ACADEMIC YEAR: 2022-23

SEMESTER II

REPORT ON

Workshop on Java and Android Bootcamp

Class : S.Y CSBS

Name of Session : Workshop on Java and Android

Date & Day : 15/05/2023 and 18/05/2023

Total No. of students: 49

Name of speaker : Mr.Alok Gupta

Location : DSA Lab, A-301

4-day workshop on Java and Android Bootcamp was conducted to provide participants with a comprehensive understanding of Java programming and Android application development. The workshop covered fundamental concepts of Java, object-oriented programming, and **practical hands-on exercises** to develop Android applications. Participants gained valuable knowledge and skills to kickstart their journey in Java and Android development.

Objectives:

1. Introduce participants to the Java programming language and its key features.
2. Teach participants the concepts of object-oriented programming and their application in Java.
3. Familiarize participants with the Android development platform and its architecture.
4. Enable participants to develop basic Android applications using Java.

Day 1: Introduction to Java

The first day of the workshop focused on introducing participants to the Java programming language. The topics covered included:

- Java syntax and structure
- Variables, data types, and operators
- Strings and Operations
- Arrays
- Introduction to object-oriented programming (OOP) concepts

Participants were provided with hands-on exercises to practice Java coding and reinforce their understanding of the concepts covered.

Day 2: Object-Oriented Programming in Java

On the second day, the workshop delved deeper into object-oriented programming (OOP) concepts and their implementation in Java. The key topics covered were:

- Classes and objects
- Inheritance and polymorphism
- Encapsulation and data hiding
- Abstraction and interfaces
- Exception handling
- Static and Final key word
- Final vs Static

After Lunch it was the introduction to Android application development. The topics covered included:

- Overview of the Android platform and its architecture
- Setting up the development environment (Android Studio)
- User interface design using XML layout files
- Introduction to Android components (activities, fragments, intents)

Participants engaged in coding exercises that involved designing and implementing class hierarchies and applying OOP principles in Java programs.

Day 3: Android Development Basics

The third day of the workshop focused on providing participants with an

- Event handling and user interaction
- Desktop applications using NetBeans IDE
- Handling permissions and security
- Testing and debugging Android applications
- Publishing an Android application on the Google Play Store
- Worked on project. (College Registration App)

Participants were guided through practical exercises where they created simple Android applications with basic user interfaces and implemented event handling functionality.

Day 4: Developing Android Applications

The final day of the workshop was dedicated working with data storage, Layouts, Test.

Participants collaborated on a group project, where they applied their knowledge to develop a functional Android Application. They learned about best practices for testing, debugging, and deploying their applications.

Conclusion:

The 4-day workshop on Java and Android Bootcamp successfully equipped participants with the essential skills and knowledge required to develop Java applications and Android applications. Through a combination of theory sessions and practical exercises, participants gained a solid foundation in Java programming, object-oriented programming principles, and hands-on experience in creating Android applications. The workshop fostered an interactive learning environment, encouraging participants to actively engage with the material and collaborate with their peers. Overall, the workshop provided a valuable learning experience and empowered participants to pursue further exploration and growth in Java and Android development.

Chief Executive Officer

Proposal for certificate course on

Programming Essentials in Python

Implemented by

ICTACADEMY

In association with

Networking Academy

This exclusive proposal is applicable and valid until

31st March 2023

1. ABOUT ICT ACADEMY

ICT Academy is an initiative of the Government of India, State Government and Industry. ICT Academy is a not-for-profit organization, the first of its kind venture under the public-private-partnership model that endeavors to train the higher education teachers and students thereby exercises developing the next generation teachers and industry ready students.

ICT Academy was started to meet the skill requirements of the industry and generate more employment especially in tier II and III parts of the country. The organization was formed with representations from government and industry. With training of teachers and students as the primary objective, ICT Academy has been working through a seven-pillar program in the areas of Faculty Development, Skill Development, Entrepreneurship Development, Youth Empowerment, Research & Publications, Digital Empowerment, and Industry-Institute Interaction.

ICT Academy is continuously striving on every aspect to provide a holistic service to every stakeholder of the education ecosystem in developing the next generation of talent pool in India to make them industry-ready employees, innovators, entrepreneurs and leaders.

Through its various initiatives, ICT Academy has been part of strengthening the India's four important visions namely Skill India, Digital India, Startup India and Make in India We collaborate with public and private organizations to create, integrate and disseminate knowledge in the field of ICT to bridge the gap between academic output and industry requirements thus providing every learner an equal opportunity to become industry-ready.

2. CISCO NETWORKING ACADEMY

Cisco Networking Academy is a global IT and cybersecurity education program that provides best-in-class courses, tools, and resources to help people from all backgrounds participate in the digital economy.

CISCO lead with our strength in technology and we innovate with the instructors and education partners, who share our commitment to powering an inclusive future for all. A powerful skills-to-jobs program, Networking Academy helps students develop in-demand industry skills and connects them with peers, mentors, and real jobs.

3. INTRODUCTION TO CISCO NETACAD

ICT Academy in partnership with CISCO proposes to offer Industry specific student skill development programs and certifications for engineering students of its members Institutions. This proposal is submitted to offer training and certification for the students. CISCO through its NetAcad initiative aims to provide industry-recognized credentials that can help students succeed in their design career

With training of teachers and students as the primary objective, ICT Academy has been working through a seven-pillar program in the areas of Faculty Development, Student Skill Development, Entrepreneurship Development, Youth Empowerment, Industry-Institute Interaction, Digital Empowerment and Research & Publications.

In partnership with CISCO Netacad, ICT Academy aims at setting up CISCO NetAcad centres across its member colleges to provide free learning resources to the students and also offer specialized career development program to students on subsidized fees to empower the Indian youth.

4. OPPORTUNITY TO BECOME CISCO NETACAD INSTITUTION MEMBER

Cisco Networking Academy transforms the lives of learners, educators and communities through the power of technology, education and career opportunities. Available to anyone, anywhere. ICT Academy as an authorized partner of CISCO NetAcad, is aiming at establishing NetAcad centres across its member institution. This proposal provides an opportunity for ICT Academy member institutions to initiate the process of obtaining CISCO NetAcad membership for your institution.

As part of our extensive IT skills and career-building program, CISCO offer a range of exploratory to career-ready courses that can be combined into complete pathways to prepare students for certification and lucrative, exciting careers that empower the digital economy. CISCO NetAcad provides the following benefits to partnering institutions.

- Partnership branding to position your institution as CISCO NetAcad approved institution.
- High-quality courses, learning tools, education platform and teaching resources-all licensed free of charges for students.
- Discounts on global certification exams.
- Instructor training support from ICT Academy at subsidized course fee for select courses.
- Online simulations, games, quizzes, and assessments in portal.

5. PROGRAMMING ESSENTIALS IN PYTHON

5.1. ABOUT PYTHON

Python is an interpreted, object-oriented, high-level programming language with dynamic semantics. Its high-level built-in data structures, combined with dynamic typing and dynamic binding, make it very attractive for Rapid Application Development, as well as for use as a scripting or glue language to connect existing components together. Python's simple, easy to learn syntax emphasizes readability and therefore reduces the cost of program maintenance. Python supports modules and packages, which encourages program modularity and code reuse. The Python interpreter and the

extensive standard library are available in source or binary form without charge for all major platforms, and can be freely distributed.

5.2. WHY LEARN PYTHON

- It is omnipresent – people use numerous Python-powered devices on a daily basis, whether they realize it or not.
- There have been millions (well, actually billions) of lines of code written in Python, which means almost unlimited opportunities for code reuse and learning from well-crafted examples.
- It is easy to learn – the time needed to learn Python is shorter than for many other languages; this means that it's possible to start the actual programming faster.
- It is easy to use for writing new software – it's often possible to write code faster when using Python.
- It is easy to obtain, install and deploy – Python is free, open and multiplatform; not all languages can boast that.
- There is a large and very active Python community.
- It will give you a solid foundation and allow you to learn other programming languages (e.g., C++, Java, or C) much easier and much faster.
- It will be fun!

5.3. COURSE OVERVIEW

The Certificate course in Python covers all the basics of programming in Python, as well as general computer programming concepts and techniques. The course also familiarizes the student with the object-oriented approach.

Module 1	**Introduction**
Module 2	Data types, variables, basic input-output operations, basic operators
Module 3	Boolean values, conditional execution, loops, lists and list processing, logical and bitwise operations
Module 4	Functions, tuples, dictionaries, and data processing
Module 5	Modules, packages, string and list methods, and exceptions

Module 6	The object-oriented approach: classes, methods, objects, and the standard objective features; exception handling, and working with files
Module 7	Database connectivity
Module 8	GUI (Graphic User Interface)

5.4. COURSE OBJECTIVES

The aim of the course is to:

- Familiarize the student with the universal concepts of computer programming,
- Present the Python programming language syntax, semantics, and the runtime environment,
- Acquaint the student with general coding techniques and object-oriented programming,
- Enable the student to start her/his own studies, and to open a path to the developer's career.

5.5. COURSE DURATION

Blended Mode of Delivery including experts' sessions and self - paced learning.

Mode of Training	**Duration of Training**
Instructor Led Classes	18 Hours
Self-Learning	50 Hours
Assessment & Certification	02 Hours
Total Duration	**70 hours**

5.6. TARGET AUDIENCE

Graduating Students with prior knowledge of any programming language.

5.7. HARDWARE & SOFTWARE REQUIREMENTS

PC running Windows 7/10, i3 or later processor, and 4GB RAM or more

5.8. ASSESSMENT AND CERTIFICATION

On successful completion of the assessments in course, the student will be eligible for

- ICT Academy Certificate in Python Programming
- PCAP – Programming Essentials in Python
