Comments:

Rushali is an experienced professor with a diverse background in engineering who will be well placed to bring Swift and iOS programming to her students.

You had a very good pace and delivery throughout the week, and did an excellent job considering why we were showing each and every slide in the lectures. And I really loved how, when you went to demonstrate the lesson's concepts, you added additional complexity to show off where students can go, even beyond the scope of the lesson.

Good job!

Recommendations:

I recommend **Rushali** to be certified as an **Apple Certified Trainer for App Development with Swift.**
