Director

Key Indicator: 7.1 Institutional Values and Social Responsibilities

7.1.4 Water conservation facilities available in the Institution

1. Rain water harvesting

2. Borewell /Open well recharge

3. Construction of tanks and bunds

4. Waste water recycling

5. Maintenance of water bodies and distribution system in the campus

HEI Input: A. Any 4 or more of the above

Findings of DVV

- 1) Provide complete details with additional photographs that are recently taken and are geo-tagged.

HEI Submission: JSPM's RSCOE is committed to sustainable water management practices, implementing various water conservation measures to ensure resource efficiency on campus. Initiatives include rainwater harvesting, borewell recharge, and the construction of water storage structures such as tanks and bunds. The institution prioritizes the maintenance of water distribution systems and water bodies within the campus to support a consistent and sustainable water supply.

The complete details with additional photographs of above-mentioned facilities are hyperlinked in table below, these images are recently taken and geo-tagged.
